2015-2016 Mustang MXP Series Cold Air Intake System

Airaid SynthaFlow MXP Series intake systems offer the power principle -more flow equals more power! These Airaid MXP intake systems feature a less-restrictive, one-piece, rotational-molded air box and a totally redesigned air intake tube. The air boxes house an oiled cotton synthetic true performance filter. Combined with the computer-designed air intake tube and built-in velocity stack, you'll have more airflow with improved horsepower, torque, and km/ltr.

SCT XCAL IV Flash Tuner

Flash Tuning Interface module for Ford applications. Will re-program your vehicle Powertrain Control Module for higher power and torque gains. BPT Custom Generic Calibrations also available for any Ford vehicle type. This device can read and reset OBD II codes and data logging software available from SCT web domain.

Ford Racing 2015/16 Mustang GT 627 HP Supercharger Kit

Ford Racing 2015 - 2016 Mustang GT 627 HP supercharger kits have been developed with ROUSH Performance to produce a whopping 627 hp @ 6,900 rpm and 540 ft.-lbs. torque @ 4,700 rpm, using approximately 9 psi of boost with 98 octane fuel. They feature a 2.3L Twin Vortices supercharger (TVS) assembly, high-flow inlet and outlet ports which vastly enhance thermal efficiency, enabling greater volumetric capacity at higher rpm. Ford Racing 2015 Mustang GT 627 HP supercharger kits include the lower intake manifold, Twin 60mm electronic throttle body, air inlet system, 47 lbs./hr high-impedance fuel injectors, and fuel rails. They're complete with air-to-liquid intercooler system-intercooler pump, heat exchanger, and intercooler reservoir.

nGauge Flash Tuner Data Logger

nGauge is a digital gauge that connects to the vehicle's OBD2 port, allowing the user to view live data and reprogram the car's ECU. Customer must specify vehicle detail Catch Code for correct Generic calibration match. Optional nGauge windshield mount available p/n. NGHOLDER NOTE: FEPS cable required for Australian Ford application p/n. NGFEPS.

Pick from hundreds of OBD2 signals. Program warning lights Built in diagnostics and clear codes. Generic BPT calibration files added to purchase.

2015-2016 Mustang 5.0L Cat Back Stainless Steel

Large Twin 3" Cat Back Stainless Steel system with Rear Left and Right exits with tips. Delivers a deep old school note without exceeding legal noise limits. Also available with the option of Vorex noise control valves to hush when needed.

2015-2016 Mustang Street Lowering Springs

Fits 2015-16 Mustang GT and 2.3L EcoBoost Coupes. Designed to work with production struts, shocks and sway bars Lowers car approximately 1.0". Gives a more aggressive-looking stance, as well as increased handling dynamics yet maintains excellent ride quality.
